Subject: RE: Please post: presentation

Dear Stephanie,

Thank you for this presentation.

I would like to formally indicate to World Bank that Guyana strongly objects to the inclusion of the New River Triangle area of Guyana's territory into the Suriname map on Slide 1 of the presentation to be delivered by Suriname. I would like to additionally note that we are extremely disappointed that this is again being done by Suriname, when Guyana would have raised objections at the last two meetings of the FCPF on this very matter.

I would also like to note that if this map is part of the presentation that will be delivered this afternoon, Guyana will also be strongly objecting to this, and will register its disappointment, that this form of the map continues to be presented, as the map of Suriname. I would also request that this objection be noted by the World Bank in the official record of the conference.

Thank you.

Kind Regards

Pradeepa.
