

# Forest Carbon Partnership Facility

## Second Evaluation:

## 2d: Recommendations concerning Delivery Partners and REDD country strategies

Twenty-third Meeting of the Participants Committee (PC23)

Washington DC

March 27-30, 2017

# Second FCPF Evaluation: Recommendations R1 (Readiness and Carbon Fund)

- Strengthen the alignment of Delivery Partner country engagement strategies and the countries' REDD+ agendas
  - Delivery Partners (DP) should discuss options of how to ensure alignment of Delivery Partner country strategies with national REDD+ agendas. Delivery Partner country management units should report alignments and malalignments of the country engagement strategies with national REDD+ agendas. To improve transparency and accountability, the Delivery Partner Grant Reporting and Monitoring Report could be used as a basis for this.
- Joint response to recommendation only 'partially agreed' to:
  - Aligning DP REDD country support strategies across various sectors with national agendas such as the NDC would be useful. Hence a key consideration is how to elevate attention to the forest/REDD agenda nationally and actions that could help this support.
  - Joint response disagreed with mandated need for DPs to report on alignment to the PC due to limited value added and lack of practicality.

# Second FCPF Evaluation: Recommendations R6 (Readiness and Carbon Fund)

- REDD Countries should continue working to involve multi-sectoral stakeholders in dialogues and institutional arrangements for REDD+, especially when preparing and implementing Emission Reductions Programs. Present success cases of multi-sectoral actors within institutions and in dialogues at PC meetings.
- OC in draft action plan noted that:
  - The PC may wish to consider means of encouraging participation of other sectoral partners (other than Ministries of Environment/Forest) in knowledge exchange / relevant fora and at PC meetings.
  - The PC, including REDD countries, may consider how to energize the multi-sectorial dialogues nationally beyond inviting countries to report / present case examples of effective multi-sectorial dialogues in countries.

We welcome feedback on the proposed actions.

*Thank you*
