Dear Sir/Madam,

**Subject : Submission of Indonesian ER-PIN**

Following the submission of Indonesian Emission Reduction Project Idea Note (ER-PIN) in 10 September 2014 by the Ministry of Forestry, we would like to respectfully inform you that Indonesia still committed to joint the Carbon Fund program.

We fully aware that following the Carbon Fund Eleventh Meeting (CF 11) held in Washington DC, USA dated 6 – 8 October 2014, Indonesia had to revised its ER-PIN proposal and make the report in the Carbon Fund Twelve Meeting (CF 12) in April 2015. However, due to several circumstances such as the restructuring of the Ministry of Forestry and Ministry of Environment become the Ministry of Environment and Forestry had made all the activities be postponed.

As the process of institutional changes have taken place, now we are in the process of revising the concept notes (ER-PIN) for the Emission Reduction Project Idea Note under the Forest Carbon Partnership Facility (FCPF) Carbon Fund. However we need some more time to revised the ER-PIN proposal. Hopefully by October 6<sup>th</sup>, 2015 we will submit the revised ER-PIN proposal formally and join the Carbon Fund Meeting in Brussell 13 – 16 October 2015.

For this regards, We would like to thank FMT and World Bank for supporting Indonesia in participating in this Carbon Fund scheme.

We looking forward to hearing from you and we thank for your cooperation.

Your Sincerely,

**Dr. Henry Bastaman, MES**  
**Director General**
