Two Additional Countries Added to ISFL Pipeline

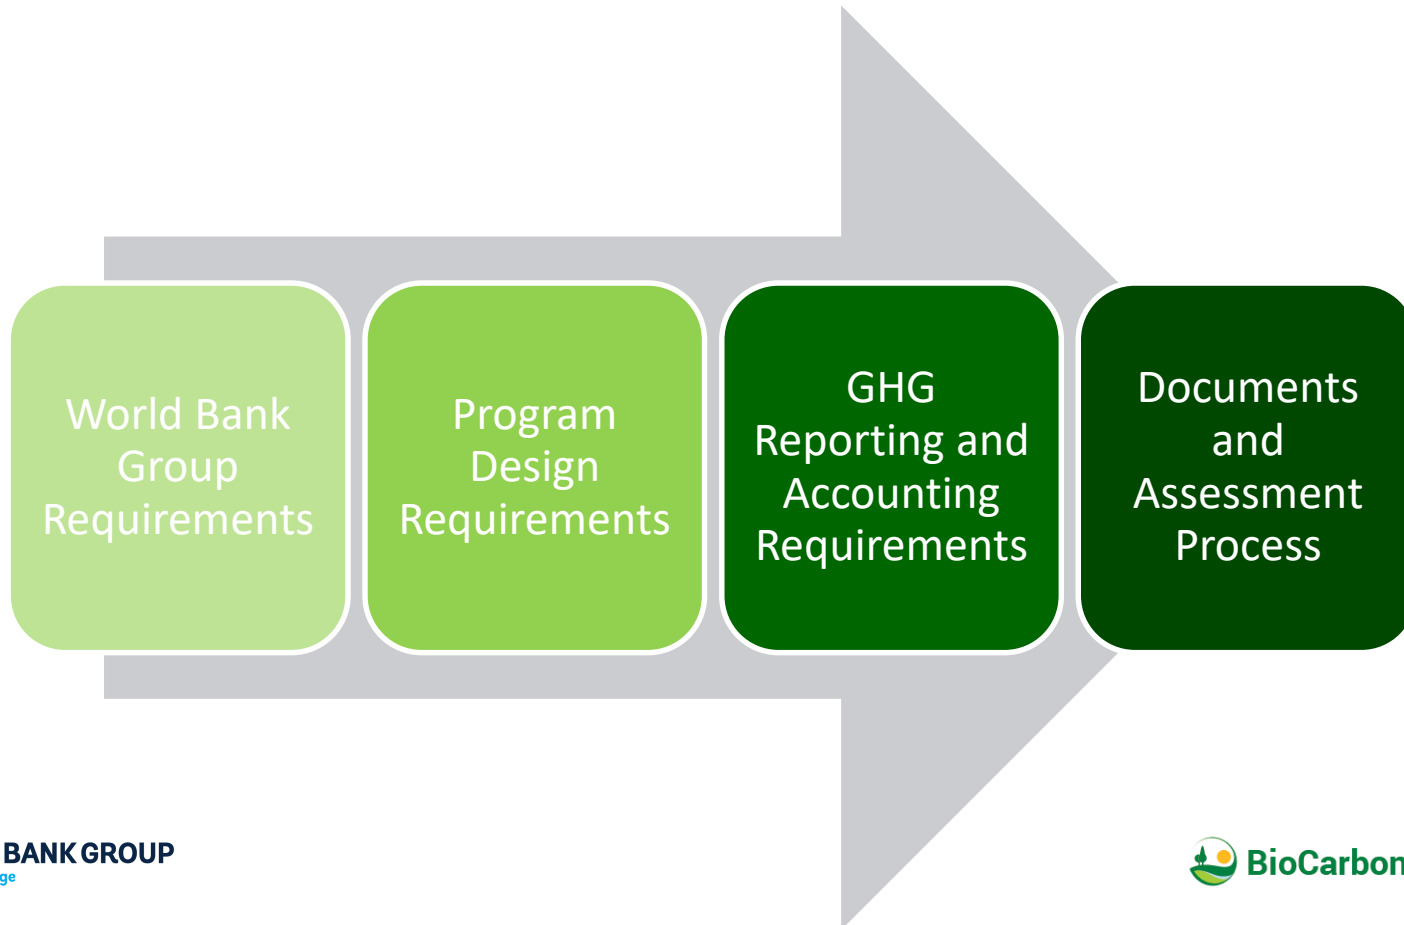

The ISFL has formally included Indonesia and Mexico in its pipeline.

The **ISFL Indonesia Program** will pilot a jurisdictional landscape approach in Jambi Province. The program will seek to improve landscape management and reduce emissions from the forest and land use sector, while promoting alternative livelihoods that help reduce pressures on the province's primary forests and peatlands.

The **ISFL program in Mexico** aims to strengthen forest management, conservation, and business development to support local communities and other landholders in sustainably managing forests, as well as increasing economic opportunities from forest resources.

ISFL ER Program Requirements

A document outlining the requirements that ISFL ER programs must comply with in order to be eligible to receive results-based finance from the ISFL. It covers the following elements:

ISFL ER Program Requirements

The ISFL is committed to working with countries to build capacity and data quality in order to be able to account for multiple AFOLU sectors, including **financial** support and **time** to reach requirements.

Looking Forward – Our Focus In the Next Year

- Development of ER programs, including ERPDs and signing ERPAs, particularly in Colombia, Ethiopia and Zambia
- Continued progress on programs in Indonesia and Mexico, including development of grant financing activities and ER programs
- Continue to identify innovative opportunities for private sector engagement, including PPPs through the IFC and collaboration with global initiatives (TFA 2020, Commodities/Jurisdiction Approach, &green Fund, Partnerships for Forests, etc.)
