Strengths of the R-PP

- REDD+ inserted under Development Planning tools, link to adaptation strategies is established
- A very thorough early dialogue and information-sharing process has been carried out
- Strong coordination among MINCC and the Government REDD+ sub committee, financial support to strengthen the MINCC is provided.
- Regions based on watersheds with Regional Development Councils will facilitate representation and implementation
- Reference Level and MRV plan based on appropriate regional approach and staged capacity building

Areas for Improvement

Component 2b

Include more information on anticipated impacts and benefits to rural population

How can policies, tools, strategies be made more coherent?

Discuss synergies with other sector strategies including market conditions and incentives

Component 2c

Identify established procedures to deal with obstacles to national, regional, and local level implementation

Implementation Plan including a Logical Framework

Component 2d

Information on how the SESA will incorporate an assessment of the drivers mentioned in component 2a.

Steps taken to prepare, implement, and review the SESA should be included in the logical framework and Implementation Plan

Component 5.

Revise budget as required after above issues explored

Component 6.

Logical Framework for Program Monitoring and Evaluation should be revised as necessary after areas of improved addressed

Thanks
